About us

National key high-tech enterprise, international standard-setting unit, leading organization and undertaking unit of national standard-setting The company has an enterprise technology center and a provincial key laboratory for laser advanced manufacturing technology

100,000

square meters of intelligent manufacturing production base

1,971

Since 1971, the world's first industrial high-power laser cutting equipment has been developed.

3,000

Nearly 3000 employees

30+

overseas sales and service centers

HGSTAR Commitment

HGSTAR provides high quality products and top-notch services to satisfy customers

Free technical training

Provide laser equipment operation, maintenance and process technology training

Professional after-sales service

Answer within 24 hours or arrive at the laser equipment site

Quality Assurance

HGSTAR provides 1 year warranty and lifetime maintenance

Provide free samples

HGSTAR customizes and sends samples for customers for free
